http://education.ti.com/educationportal/sites/US/productDetail/us_os_92plus.html

TI-Voyage™ 200 Operating System is available at
http://education.ti.com/educationportal/sites/US/productDetail/us_os_voyage 200.html

To Install MathWorlds for the Calculator:

1. **<u>CHECK</u> (For the TI-83/84 Plus)**: Check to see that you have adequate free space in **<u>Archive RAM</u>**. The application requires 49,152 bytes. **<u>CHECK</u> (For the TI-73 Explorer™)**: Check to see that you have 3 free spaces in **<u>APPs</u>**.

As the application runs an additional 10,000 or so bytes of **User RAM** is needed to store lists used by SimCalc MathWorlds™. You might wish to backup any other applications or data on your calculator to make room for the installation, especially data in **User RAM**. The lists created by SimCalc MathWorlds™ are deleted when you quit.

2. **<u>LOAD</u>**: Follow the TI Connect™ instructions to load the SimCalc MathWorlds™ Calculator App.

You are now ready to begin using SimCalc MathWorlds™. Press the APPS Key on your calculator and select **MthWrlds** from the Applications Menu to start the application. The SimCalc MathWorlds™ Splash Screen will briefly appear.

Who Do I Contact If I Have Problems?

In the event that you experience difficulty installing or using SimCalc MathWorlds™, contact our support staff via email at simcalcadmin@umassd.edu or by phone at 508-999-8797.
